Hello, my name is

Hayden Tam

I'm an IT student at York University.

Enter Your Email Let's Start

About Me

IT Student

I am an Information Technology student with a strong focus on cybersecurity and software development. My background includes coursework in data structures, web development,and more. Complemented by independent projects that showcase both technical proficiency and attention to detail. I am a self-motivated individual with a commitment to continuous learning and a strong interest in emerging technologies, including AI and digital security.

Let's Talk

Projects

Custom Portfolio

A responsive and minimalist personal portfolio built using HTML and CSS. Showcases my technical projects, contact information, and interest in IT and cybersecurity.

Read More

Memory Management System

Simulates basic memory allocation and deallocation strategies (First Fit, Best Fit, Worst Fit) using Java, with memory blocks, fragmentations, and system resource handling.

Read More

Pawfessionals

A GUI-based application developed in MATLAB to manage pet grooming appointments. Features include scheduling, customer tracking, and service logging.
